

- Each sub-grantee will be assigned a <u>TA Account Manager</u>. The TA Account Manager will help the sub-grantee comply with grant requirements (procurement, historical preservation, Buy American, etc.) and answer subgrantee questions.
- The <u>TA Energy Auditor</u> will provide the sub-grantee with an energy audit. The audit will consist of either a field audit, in which the auditor visits the sub-grantee's facilities, or a remote "desktop" audit where the energy savings are calculated remotely.
